

RANE TWELVE MKII

Quick-Start Guide

Setup

Software

The RANE TWELVE MKII is a “Serato DJ Pro official accessory”, meaning it works with Serato DJ Pro out of the box, but requires additional primary hardware connected, that falls under the Serato DJ Pro hardware unlocked or Paid upgrade to Serato DJ Pro categories.

Please ensure you have the latest version of Serato DJ Pro installed:

[Click here to download Serato DJ Pro](#)

The RANE TWELVE MKII does not require manufacturer specific drivers on Mac or Windows operating systems, and is plug & play with Serato DJ Pro.

Connection

If used in conjunction with a RANE Seventy-Two or Seventy-Two MKII mixer, you may connect the RANE TWELVE MKII to its dedicated USB accessory ports, otherwise connect it directly to a spare USB port on your computer, then connect your primary hardware, and launch Serato DJ Pro. The RCA's on the RANE TWELVE MK II will need to be connected to a Serato DVS supported device if intending to use the Unit in DVS mode (this is optional).

- MIDI Mode

Ensure the virtual deck you wish to control in Serato DJ Pro is in Internal mode, and then press the Deck 1, 2, 3 or 4 buttons, to assume control of that deck. Once assigned, the corresponding Deck Select button will indicate this by staying lit. To reassign a deck, hold the corresponding Deck Select button for 2 seconds, allowing you to assign it again, which is useful when using multiple RANE TWELVE MKII devices.

- DVS Mode

The RANE TWELVE MKII emits a Serato Control Tone from the RCA connections on the back of the unit. This allows you to control Serato DJ Pro's decks with DVS control. A Serato DVS supported device must be connected along with a DVS licence activated on your computer if required. This allows you to use the RANE TWELVE MKII without the USB connected. PLEASE NOTE - no MIDI functions on the unit will be available without the USB cable connection.

Ensure the RANE TWELVE MKII is in DVS mode. This is shown on the DECK MODE INDICATOR screen in the top left of the unit. This mode is selected by default when there is no USB cable connection. If a USB cable is connected, enter this mode by holding the 'HOLD FOR DVS MODE' button, and waiting for 'SERATO DVS' to be shown in the 'DECK MODE INDICATOR' screen.

Ensure the virtual deck you wish to control in Serato DJ Pro is in Relative mode, this is changed by default when selecting DVS mode while the USB is connected.

For further DVS setup information, click [here](#).

Overview

#	RANE TWELVE MKII CONTROL	FUNCTION
1	CUE MODE	Toggle between Cue pad mode (brightly lit) or Needle drop mode (dimly lit)
2	TOUCH STRIP	Used to set track position in Needle drop mode, or trigger Cues 1-8, depending on Cue Mode set. If no Cue is set to that Cue slot, a new Cue will be created.
3	PITCH FADER	Move to adjust track tempo
4	PITCH RANGE SELECT	Press to adjust pitch range per deck, with 8%, 16% & 50%
5	BACK	Press to move back through Serato library view
6	SELECT	Rotate to scroll through library view in focus. Press to load selected track to deck.
7	INSTANT DOUBLE	Press to load the same track, track position and BPM from opposite deck
8	45 / 33 RPM	Toggle between 45 & 33 RPM for rotation speed of the platter
9	START / STOP	Press to start & stop platter
10	MOTOR ON / OFF	Turn to start or stop platter motor
11	PLATTER	Move to manipulate audio playhead in Serato DJ Pro
12	DECK 1/2/3/4	Press to change or assign deck control in Serato DJ Pro
13	DECK MODE INDICATOR/BPM VALUE	Shows current deck mode (MIDI/REL) as well as decks BPM value
14	HOLD FOR DVS MODE	Toggle between MIDI and DVS mode

Overview

#	RANE TWELVE MKII CONTROL	FUNCTION
1	POWER SWITCH	Turn device on/off
2	AC POWER IN	Connect AC adapter
3	MOTOR TORQUE	Adjust platter torque
4	USB	Connect USB cable to PC / Mixer
5	AUDIO OUT	RCA output for Serato control tone

Help

Show Tooltips

Click on the **Help** button in the upper right-hand corner of Serato DJ Pro, then **Show tooltips** to enable tooltips. Tool tips provide a handy way to learn the various features of Serato DJ Pro.

Move the mouse over a section of the screen to bring up a context sensitive tool tip.

Watch Tutorials

Click on the **Help** button in the upper right-hand corner of Serato DJ Pro, then **Watch tutorials** to launch your default internet browser and watch tutorials, to help you get familiar with Serato DJ Pro.

Get Support

Click on the **Help** button in the upper right-hand corner of Serato DJ Pro, then **Get support** to launch your default internet browser and navigate to the Serato DJ Pro knowledge base, where you can find helpful articles and guides on Serato DJ Pro. Alternatively, type in the **Search help** **Go** box, with keywords, to search the Serato DJ Pro knowledge base for specific, related topics.
