

QUICK-START GUIDE

RELOOP TERMINAL MIX 4

serato

Installation and Setup

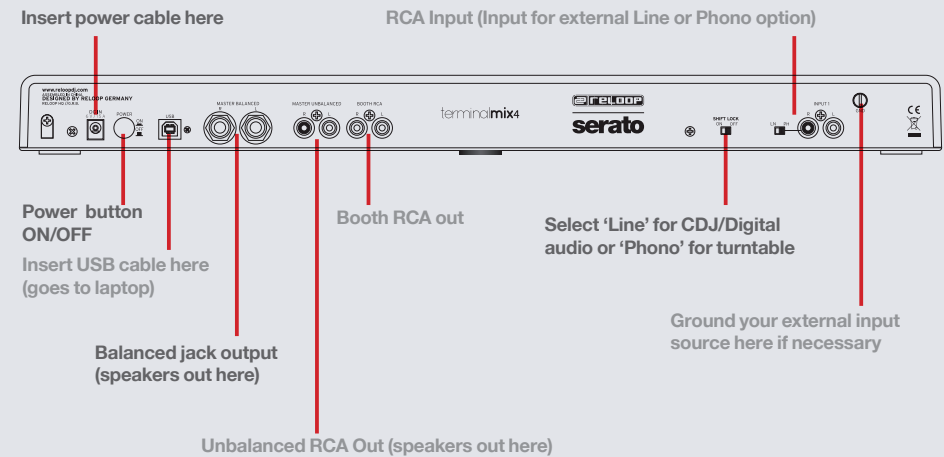

The Reelock Terminal Mix 4 is a class compliant USB plug and play device for Mac, however requires drivers for Windows. You will find these on the installation cd provided within your Reelock Terminal Mix 2.

NOTE: Please ensure you have the latest available drivers AND firmware updates, which may be required in order to be compatible with Serato DJ. Please go to <http://serato.com/dj/support>

1. Download and install the latest version of Serato DJ from <http://serato.com/dj/downloads>
2. After installing drivers, connect your Reelock Terminal Mix 4 to an available USB Port.
3. Open Serato DJ.

Serato DJ Activation

To find out how to activate Serato DJ by either starting your free 14 day trial, or purchasing a license for Serato DJ, [click here](#) for the most up to date information.

serato

Looping

You have up to 8 loops per track in Serato DJ, and the choice between either manual or auto loops. You can choose whether you have 4 loops (and 4 cuepoints) showing on screen, or 8 loops. To switch between Manual and Auto looping, click  (Manual) or  (Auto) onscreen. You can also half or double the loop length in either manual or auto modes. Press the 1/2X button to half the loop length, hold the 2X button to double the loop length, or you can use the Loop Length Knob to do the same.

NOTE The IN/OUT buttons are shift functions of the 1/2X and 2X buttons. You will need to hold SHIFT while pressing these buttons to use IN/OUT for manual loops.

Reloop Terminal Mix 4 Control	Manual Loop Mode
1/2X + SHIFT	Set loop in point (Loop not active)
1/2X + SHIFT	Adjust loop in point (Loop active)
2X + SHIFT	Set loop out point (If loop in point is set)
2X + SHIFT	Adjust loop out point (Loop active)
Loop Length (Click Knob)	Exit Loop (Loop Active)

NOTE The best way to edit the in and out points of a manual loop is with the jog wheel/platter on your Reloop Terminal Mix 4.

Reloop Terminal Mix 4 Control	Auto Loop Mode
Loop Length (Click Knob)	Auto Loop ON/OFF
Loop Length (Twist Knob)	Half Auto Loop Length

NOTE You can also save a loop to the next available free loop slot in the software. To do this, either click the  button in the manual/auto loop tab or click  on an available loop slot. Your loops are saved to the file and recalled the next time it is loaded. They are not lost if the file is moved or renamed.

Slicer

Press the **SCISSORS** button to activate Slicer Mode. Slicer Mode is when a specified range (or domain) is divided into eight equal sections, and these eight sliced sections are assigned to the respective **HOT CUE** buttons 1-4 and **SAMPLER** buttons 1-4. When the playhead reaches the end of the Slicer Domain, the entire Domain will shift to the right.

When in Slicer Mode, turn the **LOOP LENGTH** knob to set the quantization for the slicer function. The quantization can be set in four ways: 1/8, 1/4, 1/2 and 1. Hold **SHIFT** and turn the **LOOP LENGTH KNOB** to set the domain. The domain can be set to one of six settings: 2 beats, 4 beats, 8 beats, 16 beats, 32 beats or 64 beats.

NOTE: Beatgrids are required on your tracks in order to use Slicer Mode.

DJ-FX

The DJ-FX in Serato DJ are powered by iZotope™. Click the FX tab  to open the FX panel. Select either 1, 2, 3, 4 or M to assign the selected effect bank to a deck or Master Output. To activate an effect, click the ON button on your FX UNIT in the software, or the FX1 ON button on your controller. You can adjust effect parameters by using either software controls, or the FX1/FX2/FX3 knobs/buttons on the controller.

There are two available modes in the DJ-FX. Single FX Mode allows you to select one effect per FX bank, and has multiple parameters that can be adjusted. Multi FX Mode allows you to select up to three effects per FX bank, and adjust only one parameter, the FX Depth. The same effects available in Single FX mode are available in Multi FX mode, as well some additional presets.

You can select between the two FX modes by clicking either the Single FX mode button  or Multi FX mode  on

Reloop Terminal Mix 2 Control	Single FX Mode	Multi FX Mode
FXSEL 1 Button	Effect On/Off	Slot 1 Effect On/Off
FX1 Knob	Adjust Parameter 1	Adjust Slot 1 FX Parameter
FXSEL 2 Button	Adjust Parameter 2	Slot 2 Effect On/Off
FX2 Knob	Adjust Parameter 3	Adjust Slot 2 FX Parameter
FXSEL 3 Button	Adjust Parameter 4	Slot 3 Effect On/Off
FX3 Knob	Adjust Parameter 5	Adjust Slot 3 FX Parameter
SHIFT + FXSEL 1-3 Buttons	Select Effect	Select Effect in Slots 1-3
TAP	Tap to the desired FX tempo. To return to AUTO mode, press and hold	Tap to the desired FX tempo. To return to AUTO mode, press and hold
BEATS	Adjust Beats Multiplier	Adjust Beats Multiplier

NOTE: Use SHIFT + RANGE to assign FX UNIT 1 to the Active Deck. Use SHIFT + KEYLOCK to assign FX UNIT 2 to the Active Deck.

Serato Video

Serato Video is a software plugin for Serato Software which adds the ability to playback and mix video files, use effects and fader transitions with your Serato DJ Controller, an additional MIDI controller or your mouse/keyboard.

[For more information on Serato Video click here.](#)

MIDI

The MIDI control feature in Serato DJ provides the ability to map Serato DJ software functions to MIDI controller functions such as keyboards, triggers, sliders, and knobs. Integrating MIDI controllers into your Serato DJ setup can improve live performance usability, such as hitting pads on a MIDI controller to trigger Loops and Cue Points.

[For more information download the Serato DJ manual here.](#)

NOTE You can not MIDI Map your Terminal Mix 2, you will need to connect an additional MIDI controller to use these MIDI functions.

serato

NOTE: SHIFT button is used with other buttons that have shift modifier functions.

#	Reloop Terminal Mix 4 Control	Serato DJ Function	Shift Modification
1	CHANNEL FADER	Adjusts channel volume	
2	CROSSFADER	Crossfades between the two channels	
3	VU METER	LED representation of Master Output	
4	TRAX	Scroll through currently focused area (library/crates/etc)	
5	LOAD	Load track to selected deck	Activate Fader Start for that channel
6	FILTER	LP/HP filter combo adjust	
7	CUE CHANNEL	Cue selected channel in headphones	
8	DECK	Select Active Deck 1/3 (Left Deck) or 2/4 (Right Deck)	
9	PLAY/PAUSE	Play/Pause

36	2X	Double Loop Length	Loop Out/Adjust Loop Out Position
37	LOOP MOVE	Loop Shift left/right (Twist Knob) or Reloop (Click Knob)	
38	1/2X	Halve Loop Length	

#	Reloop Terminal Mix 4 Control	Serato DJ Function	Shift Modification
39	HOT CUE 4	Adds or triggers Cue Points 4	Deletes Cue Point 4
40	SAMPLER 4	Select Sample Bank	
41	CRATES	Cycle REC/FX/SP-6 Panels	Cycle SP-6/FX/REC panels
42	VIEW	Cycle view modes	Switches between 2 and 4 decks
43	BACK	Toggles focus between library/crates/open panels	
44	PREP	Loads track to prepare area	Open Prepare Panel

NOTE: #28 LOAD When used with SHIFT, activates Fader Start for each deck. This means the track will stop when the channel fader is down, and the track will start when the channel fader is up. The LOADbutton will flash when Fader Start is activated.

Using the Tool Tips

Click on the  icon to enable Tool Tips. This is located in between the MIDI and setup button in the top right hand corner of the screen. Tool Tips provide a handy way to learn the various features of Serato DJ.

Move the mouse over a section of the screen to bring up a context sensitive tool tip. Holding the mouse over the  button with Tool Tips turned on will show you a list of all keyboard shortcuts.

For more information about how to use Serato DJ, please go to our website www.serato.com or refer to the Serato DJ Software Manual. For more information on your controller, please refer to the hardware manual.
